

CAR CLIP MODEL 600

ATech's Car "Clip" is a newer model "recycled" front wheel drive vehicle. It provides for study and diagnosis of 99% of the automobile.

Each Car "Clip" includes the ATech Fault/Simulator Panel. It's Capabilities Include:

- Different sensors can be selected and their "real time" voltage can be displayed on the built-in voltmeter.
- Single or multiple sensors can be selected for voltage substitution.
- Voltage is adjusted by an on-panel potentiometer for each sensor.
- Interactive demonstration/study of fuel control by oxygen sensor feedback.
- Easily demonstrates Catalytic Converter "punch thru".
- Investigates downstream oxygen sensor's control of fuel trim.
- And a lot more!
