

# STARTING SYSTEM MODEL 811FJ

The ATech Starting System Trainer (model 811FJ) is part of an electrical system program which presents the live operation and study of starter motor systems. This trainer allows for instructor demonstration, student hands-on reinforcement and troubleshooting practice. Powered by a 12VDC automotive battery (not included). Includes courseware.

## FEATURES:

- Actual new vehicle components.
- Provides an advanced level of instruction by duplicating actual on-vehicle troubleshooting procedures.
- Intermittent and hard fault codes can be inserted using the built-in keypad, a single computer or the ATech Network System (ANS).
- Compatible with ATech's Instructor Management Program (IMP).
- Network and interconnect circuits are protected against over-current and polarity reversal.
- Courseware Includes: Instructor Guide, Student Manual and Service Manual Information.
